

activyl®

Fleas ruin friendships

Regular treatment with Activyl® will help keep your clients' homes flea-free.

New Activyl has a brand new active ingredient – indoxacarb – which kills fleas rapidly. It's gentle to use, only becoming active when it's inside the flea. And it keeps working for at least four weeks, eliminating fleas and breaking the flea lifecycle. So don't let unwanted guests get in the way of a close relationship. Offer your clients Activyl – the breakthrough, vet-only flea treatment for cats and dogs. Available in convenient single and 4-dose packs.

Activyl Dog—Fast Facts
